
PREFACE

OST released the first Deployment Fact Sheet Book in February 1999 summarizing the technology deployments for FY 1995 to FY 1998. This 1999 Deployment Fact Sheet Book focuses on deployments for FY 1999. Changes in this year's edition of the Deployment Fact Sheet Book are described in the following table.

Table: Changes in 1999 Deployment Fact Sheet Book

Section Title	Last Year	This Year
Preface		New in this year's Book
Introduction	Describes the sections, provides definitions, and explains data quality and validation efforts	Same scope as last year's Book
Section 1, Deployment Overview and Analysis	Included FY 1991 - FY 1998 deployments	Includes FY 1991 - FY 1999 deployments, incorporating any newly discovered deployment information from FY 1991 - FY 1998
Section 2, Tabulation of Deployments	Tabulated FY 1991 - FY 1998 deployments by fiscal year and Field Office/location	Only includes FY 1999 deployments. Additional deployments for prior years are included in the addendum.
Section 3, Deployment Fact Sheets	Provided FY 1995 - FY 1998 Deployment Fact Sheets	Only includes FY 1999 Deployment Fact Sheets. Additional Deployment Fact Sheets for prior years are included in the addendum.
Addendum with FY 1995 - FY 1998 deployments identified in FY 1999.		New in this year's Book. The addendum updates the deployment information for FY 1995 - FY 1998.

Raising the Bar: Technologies Deployed Multiple Times

Of technologies with multiple deployments before FY 1999, 52% were deployed three or more times. This 1999 Deployment Fact Sheet Book raises the bar on that record. Of the technologies with multiple deployments, 59% have been deployed three or more times and 27% have been deployed five or more times. This increase in multiple deployments is one indication that OST deployments are becoming more accepted and used by DOE sites.

Additional Deployments

New information provided after publication of the first Deployment Fact Sheet Book has increased the number of known deployments for FY 1991 - FY 1998. This 1999 Deployment Fact Sheet Book reports the latest totals. The Addendum provides Deployment Fact Sheets for FY 1995 - FY 1998 deployments identified in FY 1999. All deployments reported in this book for FY 1998 and FY 1999 have been verified.

Deployment Fact Sheet Format Changes

The format for Deployment Fact Sheets changed in FY 1999 to meet the needs of prospective technology users. The format is expanded to include more information about the technology vendor and program points of contact.
